

RotiBag

The ProAmpac RotiBag is an innovative alternative to traditional rigid clamshell packaging. With a significant reduction in packaging material, the RotiBag offers both enhanced sustainability and practicality.

[REQUEST A QUOTE](#)

Its clear window showcases products, while the HD flexo-printed graphics enhance shelf appeal. Additionally, the RotiBag features a built-in handle, providing a convenient way to display and carry ready-made meals at grocery stores and food service institutions.

Features include:

- Environmentally responsible
- Slim profile - displays more product & uses less space
- Integrated handle - allows easy carrying & eliminates secondary bagging
- Press-to-close zipper
- Custom branding capabilities
- Suitable for microwave application
- Excellent durability and grease resistance
